

PRIOR ART SEARCH REPORT

Title:

Date of Search Completion:

Abstract:

International Patent Classification/CPC:

Keywords:

Database	Search String	Number of Hits

Documents Considered to Be Relevant			
Category*		Citation of Documents, with indication, where appropriate, of the relevant pages Ex. Patent number/ Title/ Date filed or published	Relevant to claim No.
	D1		N/A
	D2		N/A
	D3		N/A
* Special Categories of Cited Documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier document but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family Note: Further references not indicated in this search report may be cited during substantive examination.			

CONCLUSION/ RECOMMENDATION
--

This document provides a preliminary and non-binding opinion on whether the invention appears to meet the patentability criteria in light of the search report results. It aims to help the applicant understand and interpret the results of the search report, being of special help in evaluating the possibility of obtaining a patent.
